

16th November 2022

Dear Parents,

We are just about to start an ambitious art and sport project to draw all 576 players at the upcoming men's Football World Cup. The project is called "The Free Lines Project" and our school has been chosen. This is a chance for our school to draw every player that will feature in the Football World Cup and to create an album to enjoy and treasure.

How can we make this happen?

Much like the Panini sticker books, you can purchase one of the Free Lines pack of cards for 50p. When you open the pack, you will see which 1 player you have been randomly allocated. Once you are at home, you can follow the easy instruction card in the pack to find out how to draw your 1 player.

Next Monday, if your children brings 50p into school, your child's class teacher will give them a random pack. After school, outside Year 2 and Year 4, our teaching team will be set up selling more packs. Children and families can buy more than the one pack to ensure we draw every player and as many people in our community can have fun drawing the players.

Once the drawings are completed, the children need to return them to the drop box by the staff room by the deadline indicated – **Monday 28th November**. The Free Lines team will then turn the completed drawings into an album for you to be able to purchase.

Do have as much fun as you can with the drawing, this project is all about fun. One of the Free Lines team will be leading an assembly tomorrow (Thursday 17th) to describe the project.

The Free Lines Project is about inclusiveness and community and FUN, we really look forward to your enthusiasm and support with this year's adventure.

Please remember to ensure your child brings 50p cash on Monday for your child's allocated pack. You can also bring more 50p's for after-school sales on Monday and Tuesday. All money raised goes to the school PTA.

Thanks, and happy drawing,

The Free Lines team & HVA PTA
